---

Thanks for the heads up, Paige.

Cindy/George are you going to PDF what Paige received and put it on line or is there too much information to do that. I would like to get a copy/see the information as soon as possible.

Thanks,

chuck

**Subject:** Materials from General Dynamics

I received a package from General Dynamics, referencing EXPLO Systems. I have not reviewed the content, however, I will provide the package to Cindy Brown and George Malone first. If anyone else would like a copy or would like to review the documentation, please coordinate with them.

Thank you
